Amazing  
brace  
...can you see it?

# A beautiful smile lights up the face...

STRAIGHTEN YOUR TEETH INVISIBLY. IMPROVE YOUR SMILE AFFORDABLY. CLEARSTEP IS WIRELESS, REMOVABLE AND HYGIENIC.

ClearStep is the clearest brace in the world.  
It's easy and comfortable to wear.  
It treats people of any age.  
It's totally unique and flexible.  
And can treat all types of orthodontic problems.

## HOW DOES IT WORK?

A series of clear (almost invisible) wafer thin plastic positioners which gradually guide your teeth from their present to their desired position.

During the course of treatment a trained clinician will monitor your progress at regular intervals until the best possible aesthetic results is achieved.

ClearStep is unlike conventional orthodontics that use unsightly wires, brackets and acid etching, which can lead to decay of healthy teeth.

ClearStep wafer thin plastic positioners.

What's more, ClearStep allows the patient to pay in easy instalments and is more affordable than many of the other clear positioning treatments available.

To discover a new way to achieve your desired smile please contact one of our ClearStep experts.
